## Waste Management policy

### Introduction

APJTT College, Kudlum, Nagri, Ranchi, initiated Waste management policy to handle waste from its inception to its final disposal. They encompass regulations, strategies, and practices aimed at minimizing waste generation, promoting recycling and reuse, and ensuring environmentally sound disposal methods. Here's an overview of key components and objectives of effective waste management policies.

The campus has plenty of greenery and all staff and teachers work towards beautification of our green campus.

- Waste is segregated and disposed.
- We have a rain water harvesting system installed in the campus.
- Students maintain herbal garden.
- Regular plantation drives are held on campus.
- One person appointed to make sure Turn off lights after use in the all classrooms and common rooms everyday and also ensures that everyone switches off lights after use to save electricity.
- Annual workshops are held to teach students to create TLM out of waste materials.
- Kitchen waste and dry leaves are collected in the compost pit to make manure, which is used back to tend to the college garden.
- Benchmarking the campus using the green norms.
